PROFESSIONAL SUMMARY

Operations systems specialist with 5+ years across order fulfillment, logistics, sales operations, inventory, returns, field operations, and reporting. Translates frontline processes into requirements, workflows, controls, KPI systems, and testable acceptance criteria, then uses AI-assisted delivery and business tools to implement practical applications. Track record includes supporting 100% order-fulfillment SLA in Q1 2025, reducing the logistics cost ratio from 5.0% to 2.8%, enabling sales tools for 70+ active users, and coordinating closure of an IDR 1.3 billion returns backlog in one week.

PROFESSIONAL EXPERIENCE

Senior Operations Specialist | Xingyun Group

Indonesia | Jan 2025 - Present

- Connected order fulfillment, logistics, sales operations, inventory visibility, and operational controls; supported 100% order fulfillment within SLA throughout Q1 2025.
- Improved delivery planning using vehicle capacity and product volume, reducing the logistics cost ratio from 5.0% in Q4 2024 to 2.8% in Q1 2025.
- Defined requirements and workflows for integrated sales tools used by 70+ active users across Channel PIC, Regional Manager, Area Manager, and Business Development roles.
- Maintained accurate order entry and multi-warehouse stock visibility to support fulfillment and customer-facing availability.

Assistant Regional Sales Manager | Polibeli

East Java | May 2024 - Dec 2024

- Built KPI monitoring and field-activity reporting with Google Sheets, Apps Script, AppSheet, and Tableau, providing daily visibility into sales activity, GMV, product trends, and achievement gaps.
- Translated regional performance data into operational insights that supported three Best Regional Manager awards during Q3-Q4 2024.

Data Analyst | GOTOKO

Sidoarjo and Gresik | Dec 2022 - May 2023

- Analyzed FMCG product trends and customer history by cluster; the resulting execution strategy contributed to the Sidoarjo cluster ranking #1 nationally for achievement in Q1 2023.
- Developed a chatbot and reporting hub for stock, order, and customer information across Sales, Warehouse, and Logistics teams.

Return Operations Staff / Supervisor | ULA

Pasuruan and Surabaya | Dec 2021 - Mar 2023

- Investigated customer-rejected items and identified fraud and operational risk patterns to help prevent losses.
- Coordinated product tracing, hub retrieval, and 3PL claims to close an IDR 1.3 billion returns backlog within one week.

SKILLS

Process Improvement: Business process mapping; SOP design; operational controls; root-cause analysis; continuous improvement; requirements gathering; acceptance criteria; UAT; QA

Operations: Order fulfillment; logistics; inventory; sales operations; return operations; field operations; KPI and performance monitoring; cross-functional coordination

Data and Reporting: Microsoft Excel; Google Sheets; Tableau; SQL; operational reporting; data validation

Automation and Delivery: AppSheet; Apps Script; AI-assisted workflow automation; Next.js; React; Supabase; PWA; offline workflows; role-based access control

EDUCATION

Bachelor of Law (S.H.) | UIN Sunan Ampel Surabaya | Graduated 2018 | GPA 3.49 / 4.00

SELECTED OPERATIONS SYSTEMS

GeoLead | Geospatial Lead Acquisition SaaS | 2026

- Designed an end-to-end workflow for Google Maps lead acquisition using verified administrative boundaries, including territory selection, polygon validation, mission queues, audit manifests, and Excel export.
- Directed AI-assisted solution delivery for the operator application and commercial licensing flow; indexed 83,518 raw village polygons across 38 provinces as the geographic validation foundation.

Kayou POS | Multi-Booth Retail Operations | 2026

- Mapped workflows for six role groups and unified point of sale, attendance, inventory, stock transfer, day-close, and reporting in one role-based PWA.
- Defined offline queues, location and photo evidence, cash reconciliation, access controls, and operational reporting for multi-device booth operations.

KLWT Surveyor | Field Survey and Market Intelligence | 2026

- Designed a five-role field workflow connecting assignment, GPS and photo evidence, address validation, verification, revision, and market-intelligence reporting.
- Specified duplicate scoring, auditability, import-export, and PWA notifications to improve control over survey progress and data quality.

Narotama Workforce | Workforce Attendance and HR Operations | 2026

- Mapped employee, HR, and administrator workflows for GPS and geofence attendance, selfie evidence, shifts, overtime, leave, corrections, contracts, and reporting.
- Defined offline queues, device binding, server time, period locks, policy controls, and audit trails for PT Cahaya Putra Narotama.

DELIVERY APPROACH

- Own operations discovery and current-state mapping across users, handoffs, data, risks, and exceptions.
- Convert operating needs into roles, business rules, controls, requirements, acceptance criteria, and UAT scenarios.
- Use AI to accelerate prototyping and implementation while retaining responsibility for validation, quality control, and fitness for operational use.
