

Tableau Portfolio

By Samsul Arifin as Regional Sales Manager Asistant 2024

The data has been deliberately blurred to protect company confidential figures

+ a b | e a u

This is a data visualization portfolio created using Tableau by Samsul Arifin, based on the data visualization needs of the Regional Manager. The data is updated daily to help the Regional Manager monitor day-by-day achievements and track GMV trends (increase or decrease) for each city, each salesperson, and each SKU.

“impact”

The data visualization displayed on this dashboard makes it easy for stakeholders to monitor sales performance across manpower, areas, products, and brands. It also helps in making informed policy decisions based on sales history
